GERMAN CABLE LETTER Budget of Gossip From the Father-

land.

Berlin, April 6.—The entire German press is still greatly excited over the emperor's utterances on the occasion of his toasts, and the reviews in today s weekly press confirm this condition. The Cologne Volks Zeitung says Emperor William's words to the Emperor Alexander Grandler regiment upon the occa-sion of useir installation in their new parracks near the emperor's palace when he called them his life guards, etc., have been received everywhere with dismay and amazement, but sadder still is the fact that the emperor had the reginent's barracks built in close proximity to the castle, which shows that the emperor meant what he said upon that occasion. The paper then dissects the em-peror's toust concerning Russian-German relations and says it is evident that some body has been systematically trying to embroil these hitherto friendly relations. and that from the emperor's hints this and that from the emperor's hists this Tribune from Ann Arbor, Mich. says: can only be Great Britain or Japan.
